Upper Extremity Peripheral Nerve Entrapments

Eric Robertson, PT, DPT, OCS, FAAOMPT

Course Objectives:

Upon completion of this course, learners will be able to:

- Review upper extremity peripheral nerves and applied anatomy
- Review common points and areas of upper extremity peripheral nerve entrapments
- Outline key diagnostic factors for each common site of entrapment
- Examine evidence for interventions of common upper extremity peripheral nerve entrapments
- Apply the information in this course to a patient case
