ASD & Reading Comprehension Part 1: Cognitive Characteristics

Sylvia Diehl, PhD, CCC-SLP

Course Description:

Part 1: Cognitive Characteristics is one of three courses that focus on reading comprehension in children with ASD. It is designed to familiarize the participant with the cognitive characteristics which may contribute to reading comprehension difficulties in children with autism spectrum disorders.

Course Objectives :

Upon completion of this course, learners will be able to:

- Identify the role of executive functioning, theory of mind, and central coherence in reading comprehension in children with ASD
- Illustrate how executive functioning, theory of mind, and central coherence can be incorporated into intervention for reading comprehension in children with ASD
