Application of Neuromotor Approaches: Frames of Reference Part 1

Jane O'Brien, PhD, OTR/L, FAOTA

Course Objectives:

Upon completion of this course, learners will be able to:

- Describe frames of reference used in occupational therapy for children and their families.
- Define the principles and key concepts of each frame of reference to occupational therapy evaluation, intervention, and outcomes measurement for children and youth.
- Understand the principles of change as stated by each frame of reference.
- Identify techniques and strategies proposed by the approach.
- Apply therapeutic reasoning to design effective intervention based on each frame of reference
