MedBridge

Application of Neuromotor Approaches: Frames of Reference - Part 2

Jane O'Brien, PhD, OTR/L, FAOTA

## Course Objectives:

Upon completion of this course, learners will be able to:

- Describe frames of reference used in occupational therapy for children and their families.
- Define the principles and key concepts of the frame of reference to occupational therapy evaluation, intervention, and outcomes measurement for children and youth.
- Understand the principles of change as stated by each frame of reference.
- Identify strategies proposed by each approach.
- Use knowledge to engage in therapeutic reasoning to design effective intervention.
