

## **Learning Objectives**

MedBridge

*Starting a Private Practice Part 1*

Denise Dougherty, MA, CCC-SLP

### **Course Objectives:**

- Identify the vision for your practice now and down the road, including your motivation for private practice.
- Recognize potential pitfalls and obstacles when starting your potential business.
- Analyze your financial strengths, weaknesses and amount of capital necessary to open your business, including your financial health, sources of capital investment, your potential financial reserve, and steps to take if financial health is not optimal.
- Identify appropriate consultations to assist in developing your plan (including attorney CPA, banker), and determine what they need to know from you to assist, and what you need to know from them.
