Supervision of SLPAs Part 2: Feedback & Goal Setting

Jennifer Schultz, M.A., CCC-SLP

Course Objectives:

Following completion of course, the learner will be able to:

- Describe the importance of observation in the SLPA supervision process
- Evaluate SLPA strengths and needs, based on objective data
- Plan feedback conferences that utilize knowledge of the SLPA's individual traits, previously set goals, and objective data to improve client outcomes and to advance the SLP-SLPA supervisory relationship
- Develop a plan to minimize problems and effectively navigate conflict in the SLP-SLPA relationship
- Describe the importance of mentoring in the SLP-SLPA relationship
