Principles of Motor Learning and Apraxia of Speech Treatment

Lauren Bislick, Ph.D., CCC-SLP

Course Objectives:

Upon completion of this course, learners will be able to:

- Define motor learning
- Describe Schema Theory and its key components
- List and describe motor learning principles that have been explored in individuals with AOS
- Identify motor learning principles that have been effective in facilitating maintenance and generalization of trained skills in individuals with AOS
- Describe ways in which these principles are currently incorporated into AOS treatments
