

Learning Objectives

MedBridge

Advanced Physical Therapy Management of Multiple Sclerosis

Herb Karpatkin, PT, DSc, NCS, MSCS and Evan T. Cohen, PT, MA, PhD, NCS

Course Objectives:

- Understand the role of fatigue in limiting mobility in persons with MS.
- Differentiate between subjective fatigue and objective fatigability in persons with MS.
- Perform an evaluation on a person with MS with minimal, moderate, or severe disability and analyze and interpret the evaluative findings.
- Identify evidence-based interventions for evaluative findings of MS patients across the spectrum of disability.
