# Learning Objectives

MedBridge

*Physical Therapist Exercise Treatment of Chronic Lung Disease*

Rebecca Crouch, PT, DPT, MS, CCS, FAACVPR

## Course Objectives:

Upon completion of this course, learners will be able to:

- Apply the information on lung disease diagnosis, prognosis, and diagnostic testing, and administer evaluation and treatment techniques in the acute care, home, or outpatient setting
- Analyze the degree of impairment in patients with lung disease by utilizing appropriate outcome measures to monitor progress in the acute care, home, or outpatient settings
- Compare the information from cases on patients with chronic lung disease and determine best practice plan of care for each case
- Apply the appropriate documentation and billing for pulmonary therapy
