The Role of the Infection Preventionist in Long-Term Care

Shelley Bhola, RN, GERO-BC, BSN, PHN, MSN, CIC

Course Objectives:

- List the recommended qualification for the facility's Infection Preventionist.
- Explain the integral role the IP will have within the interdisciplinary team.
- Differentiate between process surveillance and outcome surveillance.
- Prioritize the day in the life of an Infection Preventionist.
- Formulate a sample report to present to the Quality Assurance Committee.
