

## **Learning Objectives**

MedBridge

*Creating an Antibiotic Stewardship Program*

Shelley Bhola RN, GERO-BC, BSN, PHN, MSN, CIC

### **Course Objectives:**

- Describe the history of antibiotic use and the subsequent development of resistance to the antibiotic.
- Summarize the six core elements of an effective antibiotic stewardship program.
- Explain the importance of educating all staff, residents, families, and clinicians on antibiotic stewardship.
- Evaluate the impact of utilizing a multidisciplinary approach to antibiotic stewardship.
- Develop a method that provides ongoing surveillance and advocacy to sustain an antibiotic stewardship program.
