

## **Learning Objectives**

MedBridge

*Psychiatric Home Care Nursing Part 1*

Constantine Checa-Gerena, MSN, PMHNP

### **Course Objectives:**

- Identify the role of the psychiatric home care nurse as part of the interdisciplinary team in consideration of Medicare regulations.
- Describe the common psychiatric conditions and how they impact patient quality of life.
- Apply evidence-based screening tools to recognize signs and symptoms of mental illness and as a means of evaluating outcomes.
- Outline strategies for applying learning objectives into practice.
