## Learning Objectives

MedBridge

*Palliative Wound Care*

Anne Walsh, RN, MSN, APRN-BC, CWOCN, ACHPN

### Course Objectives:

Upon completion of this course, learners will be able to:

- Define palliative wound care
- List common wounds seen at end of life and provide a comprehensive wound and peri-wound assessment
- Provide accurate staging of pressure injuries and interventions to manage and reduce the risk of developing pressure injuries
- Identify intact eschar and how it should be managed in the frail patient
- List palliative wound treatment options to address the common distressing symptoms of wound pain, odor, excessive drainage, and bleeding
