Bariatric Care Part 2: Providing Sensitive Care and Eliminating Bias

Rose M. Flinchum, MEd, MS, RN, ACNS-BC, BC-ADM, CDE

Course Objectives:

Upon completion of this course, learners will be able to:

- Describe the phenomenon of weight (obesity) bias
- Identify contributing factors to weight bias
- Detect manifestations of weight bias in health care
- Assess one's own potential for weight bias
- Recognize the effects/implications of weight bias
- Identify ways to provide sensitive care for persons with overweight and obesity
- Analyze a case study of an individual with overweight and obesity
