Pediatric Voice Therapy Part 4: Resonant Voice Therapy for Children

Maia Nystrum Braden, MS, CCC-SLP

Course Objectives:

Upon completion of this course, learners will be able to:

- Discuss principles of motor learning as they apply to learning a voice skill
- Identify in their own voice sensations associated with forward resonance
- Describe a plan for teaching resonant voice to a child with a voice disorder
- Discuss a plan based on physiology and development to help with carryover and generalization of target voice use outside the therapy session
