MedBridge

Differential Diagnosis & Screening: Introductory Concepts, Cardiovascular & Respiratory

Andrew J. Opett, PT, DPT, OCS

Course Objectives:

Upon completion of this course, learners will be able to:

- Identify red flags as they pertain to patient examination, clinical presentation, and systems review
- Describe the mechanisms of visceral pain transmission and interpretation
- Identify common referred pain patterns to joint regions
- Evaluate the patient for psychological factors/conditions that may mimic musculoskeletal pain or influence the pain experience
- Analyze the key components of regional physical assessment
- Recognize the clinical signs and symptoms associated with common medical conditions in elderly adults
