## Learning Objectives

MedBridge

*Treatment of Speech/Resonance Disorders Associated With Velopharyngeal Dysfunction*

Ann W. Kummer, PhD, CCC-SLP, FASHA

### Course Objectives:

Upon completion of this course, learners will be able to:

- Describe various treatment options for resonance disorders and velopharyngeal dysfunction, including surgical procedures, prosthetic devices, and speech therapy
- Implement appropriate speech therapy techniques to achieve normal placement for speech sound errors, regardless of cause
- Utilize motor learning principles to achieve carryover more quickly following achievement of appropriate placement
