Management of the Head and Neck Cancer Patients Postoperatively

Barbara Pisano Messing, MA, CCC-SLP, BCS-S, FASHA, PhD Candidate

Course Objectives:

Upon completion of this course, learners will be able to:

- Discuss surgical and nonsurgical treatment options for head and neck cancer
- Identify factors related to achieving optimal cosmesis and oncologic outcomes
- Describe surgical treatments and why they are considered for management of HN tumors
- Discuss optimal closure options based on anticipated surgical defect from extension of disease
- Identify the effects of surgical versus nonsurgical treatment options on the head and neck cancer patient
