# Learning Objectives

MedBridge
*Recorded Webinar: Dual Task Training in Stroke Rehabilitation: Recovering Automaticity in Gait, ADL, Swallow, and Other Procedural Memories*
Mike Studer, PT, MHS, NCS, CEEAA, CWT, CSST

## Course Objectives:

Upon completion of this course, learners will be able to:

- Name the three guiding principles of DT (dual task) training
- Identify the four main modalities of distractions in clinical and real world DT applications
- Identify the physiology of attention and DT in normal and in various stroke presentations
- Identify compensatory strategies for those unable to improve DT after stroke
- Create an individualized program for patients recovering from stroke
