MedBridge

Enteral Nutrition for the Post-Acute Patient/Resident

Betty Clark, BSN, MEd, RN, CRRN

Course Objectives:

Upon completion of this course, learners will be able to:

1. Describe the benefits, indications/contraindications, and potential complications for enteral feedings
2. Identify the indications, advantages, and disadvantages of the five enteral routes
3. Discuss appropriate interventions to address common complications of enteral feedings
4. Distinguish the basic differences among tube feeding formulas
5. Describe evidence-based procedures for tube feeding, medication administration, site maintenance, and ongoing monitoring
6. Design a patient/resident/caregiver education program on the management of enteral nutrition
