Treatment Insights for Persons Aging With Multiple Sclerosis

Kay Wing, PT, DPT, NCS, and Valerie Carter, PT, DPT, NCS, GCS

Course Objectives

Upon completion of this course, learners will be able to

- Analyze the anatomy and pathophysiology of multiple sclerosis (MS) across the disease severity for the purpose of differential diagnosis
- Design and effectively apply treatment interventions, incorporate appropriate dosages, and understand how to modify these during disease progression when treating aging adults with MS
- Design treatment plans that incorporate appropriate dosing for older adults with MS
- Acquire knowledge of medication advances for treatment of older adults with MS
