Rehab Management of Multiple Sclerosis: What You Need to Know (Recorded Webinar)

Herb Karpatkin, PT, DSc, NCS, MSCS

Course Objectives

Upon completion of this course, learners will be able to

- Recognize how the distinct pathology of multiple sclerosis results in its unique clinical presentation
- Describe the impact of specific medical management on therapy practice in persons with MS
- Analyze the findings on a physical therapy examination for persons with multiple sclerosis to attain an accurate picture of the patients' specific mobility deficits
- Design a treatment plan for a patient with multiple sclerosis that addresses the unique set of impairments found on the evaluation
