Pediatric Palliative Care and Hospice: Final Weeks, Days, and Hours

Joan “Jody” Chrastek, RN, CHPN, DNP, FPCN

Course Objectives

Upon completion of this course, learners will be able to

- Describe three similarities and differences in care between adults and pediatric patients at the end of life
- Critique three common comfort medications that may be used at the end of life for a pediatric patient
- Review three family/caregiver interventions that may provide comfort for the dying child
- Discuss the importance of attending to siblings of the dying child
- Complete and explain the importance of a self-care plan
