Community Asset Mapping: A Blueprint to Aging in Place

Aimee E. Perron, PT, DPT, NCS, CEEAA

Laura M. Caron-Parker, OTR/L, ECHM

Course Objectives

Upon completion of this course, learners will be able to

- Outline the general principles and overall advantages of person-centered community asset mapping
- Identify the WHO Age-friendly domains that guide asset identification for a selected community
- Express the importance of determining and incorporating a person's values, preferences, expressed goals, and health literacy abilities into the asset mapping plan
- Distinguish between needs-based assessment versus an asset-based assessment
- Identify various types of community assets
- Select appropriate methods for asset mapping
- Apply strategies to catalyze connections and creatively build partnerships
