Community Asset Mapping: Application of Your Blueprint

Aimee E. Perron, PT, DPT, NCS, CEEAA

Laura M. Caron-Parker, OTR/L, ECHM

Course Objectives

Upon completion of this course, learners will be able to

- Identify the general principles and overall advantages of person-centered community asset mapping
- Select WHO Age-friendly domains applicable to their selected community
- Express the value of assessments that aid in the identification of a person's values, preferences, expressed goals, and health literacy abilities for incorporation into the community asset mapping plan
- Identify the steps and methods necessary to select, locate, and access community assets
- Build strategies to catalyze connections and increase social capital, build consensus, and creatively engage partners to increase inclusion, diversity, and equity
