## Learning Objectives

MedBridge

*Updates in Contemporary Orthopedic Practice (Recorded Webinar)*

Mary Derrick-Manis, PT, DPT, PhD(c), OCS, FAAOMPT

### Course Objectives

Upon completion of this course, learners will be able to

- Analyze recent clinical practice guidelines that assist in the management of patients with musculoskeletal conditions
- Distinguish evidence for interventions for upper quarter and lower quarter regions from recent clinical practice guidelines
- Choose evidence-supported strategies for managing patients with tendinopathy
- Determine the clinical utility of the radar plot for understanding pain presentations
- Use recent clinical practice guidelines to determine appropriate intervention strategies for patients with low back pain
- Integrate recommendations from recent clinical practice guidelines in the management of patients with hip and pelvic disorders into patient case problems
- Integrate clinical practice guidelines in determining prioritized examinations and interventions for workers returning to work
