Lines, Leads, Tubes, and Drains in Acute Care Rehabilitation

Ashely Poole, PT, DPT

Course Objectives

Upon completion of this course, learners will be able to

- Recognize the clinical decision-making skills required to mobilize patients in acute care
- Identify common lines, leads, tubes, and drains that are encountered in the acute care setting
- Identify the purpose of lines, leads, tubes, and drains that are utilized in the acute care setting
- Identify safety precautions when mobilizing patients with lines, leads, tubes, and drains in the acute care setting
- Translate knowledge of lines, leads, tubes, and drains to a patient case in the acute care setting
