
Learning Objectives

MedBridge
Interpretation of Lab Values in Acute Care Rehabilitation
Ashely Poole, PT, DPT

Course Objectives

Upon completion of this course, learners will be able to

- Identify normal reference ranges for relevant lab values based on the Academy of Acute Care Physical Therapy's *Laboratory Values Interpretation Resource*
- Demonstrate understanding of acute and chronic causes of abnormal lab values and their impact on a patient's plan of care
- Predict a patient's potential clinical presentation in the context of an abnormal lab value
- Recognize safety precautions and contraindications to mobility in the context of abnormal lab values
- Interpret lab values given a patient case in the acute care setting
