Attendance, Compliance, and Fear: Applications in Patient Engagement (Recorded Webinar)

Mike Studer, DPT, PT, MHS, NCS, CEEAA, CWT, CSST, FAPTA

Course Objectives

Upon completion of this course, learners will be able to

- Formulate three barriers to behavioral change (adopting recommendations) that are commonly seen in healthcare settings
- Determine three applications for behavioral economics in the clinical, rehabilitative, or wellness setting
- Develop five common concepts in behavioral economics that apply to healthcare
- Describe how to apply three behavioral economics concepts in their own healthcare interactions
- Justify four opportunities and applications for providing autonomy in healthcare
- Interpret the difference between patient experience and patient engagement
- Assess fear and its impact on choice, as well as treatment approaches
