Occupational Therapy Professionals' Guide to Fall Prevention in the Home

Krista Covell-Pierson, OTR/L, BCB-PMD

Upon completion of this course, learners will be able to

- Identify where falls most commonly occur in the home in order to ensure it is being addressed in the plans of care
- Identify three strategies to address falls during evaluations
- Select appropriate fall assessment strategies for use outside of the home (garage, yard, or garden area)
- Identify and implement goal setting strategies in the evaluation that address fall risk
