Breakthroughs in TJA: New Advances Transforming the Patient Experience

John O'Halloran, PT, DPT, OCS, ATC (retired), CSCS (retired), Cert MDT, Certified SCTM-1 Practitioner

Upon completion of this course, learners will be able to

- Correlate the rise of total joint arthroplasty and the economic impact on the US healthcare system
- Analyze the current medications and advances in the multimodal approach to pain management in operative and postoperative total joint arthroplasty
- Determine treatment options, utilizing case studies to address postoperative clinical problems
- Select strategies to reduce narcotic use in postoperative total joint arthroplasty
