Learning Objectives

MedBridge
Rising to the Challenges for Assuring Ethical Practice
Lisa Milliken, MA, CCC-SLP, FNAP, CDP, RAC-CT

Upon completion of this course, learners will be able to

- Correlate ethical challenges from reimbursement models to consider the most appropriate clinical decisions for each client
- Examine the ethical rules and principles to be upheld by different healthcare professionals
- Reconcile the different viewpoints of interprofessional team members to determine what is best for each patient
- Categorize cultural barriers to facilitate improved competence for ensuring appropriate and successful interventions
- Deconstruct the types of biases that might affect the quality, consistency, and accuracy of decision-making for a patient's care
- Distinguish the ethical tensions that may arise from a professional's conflicting allegiances and values
