Evaluation and Outcome Assessment in the Neurological Upper Extremity

Salvador Bondoc, OTD, OTR, BCPR, CHT, FAOTA

Course Objectives:

Upon completion of this course, learners will be able to:

- Appreciate and incorporate into practice the ICF Model and systems approach during the evaluation/assessment process
- Demonstrate and explain the use of physical tests and measures specific to the neurologic upper extremity
- Using assessment findings, recognize different patterns of the neurologic upper extremity and describe corresponding approaches to treatment
